

RAJADHANI INSTITUTE OF ENGINEERING AND TECHNOLOGY

Alamcode, Attingal, Thiruvananthapuram

NISP POLICY DOCUMENT

VISION

To become a Innovative startup supporting& assisting the modern Innovators and Entrepreneurial talents around the Institute.

MISSION

Establishing a Startup hub and Incubation centre at RIET

. Creating a sustainable environment of Innovation, R&D and Engineering in the Institute.

Enhancing the connection between RIET and industrial community.

OBJECTIVES

Encouraging students and faculties to bring new ideas.

Motivating students for self-employment which in turn leads to improvement of entrepreneurial skill.

Attracting the investments into the incubation and startup environment within the Institute.

Networking the stakeholders and maximizing industry academia connection.

Establishing technology-based Incubators in each engineering trades across the Institute.

GOALS

>Short Term Goals

Organizing workshops related to Entrepreneurship skills, Startup and Innovation importance.

Evaluating ideas from Expert Committee (faculty and students) on regular basis

> Mid Term Goals

Setting up incubation center at RIET.

To convert the innovative ideas into small scale Start-up.

.To Establish relations between universities and industrial R&D centers in nearby locations.

>Long Term Goals .

To run a full scaled incubation/innovation center within the Institute.

Attracting the funds from R&D centers , Government Agencies etc.

Increasing the rate of startupsinside the Institute.
